1855 NEW GOODS. 1855.

Grant Collection of PRAYER BOOKS.

Cheap Watch & Jewelry Store.

The subscriber tends his acknowledgement to his friends and the public, for the very liberal patronage hitherto extended to him, and respectfully informs them that he has just returned from the Cities with a splendid assortment of NEW GOODS, comprising, in part, a fine stock of Delaines, Shawls, Ginghams, Gloves, Stockings, Ribbons, Collars, Muslins, Irish Linens, &c.

He denotes it unnecessary to enumerate the different articles which comprise his Stock. He would earnestly invite all to call and examine before purchasing elsewhere.

J. S. GRAMMER.

Another New Novel!

WORKS of fiction are now considered as

part and parcel of all intelligent houses;

and scarcely a family will be without

our new novel entitled "The Fireman"—the

most interesting work of fiction from the press

of 1856. The reader's attention is caught

with the first chapter, and finds it hard to

put down. The book is a masterpiece of

artistic writing.

It teaches us how to make ladies or gentlemen win

the devoted affection of as many of the opposite sex as their hearts may desire. And the plan so simple, yet so captivating that all may be interested irrespective of age, appearance, or position; and it can be carried with such ease and delicacy, that detection is impossible.

It teaches us how to make love.

It teaches every eye to detect a lie of its own.

It teaches how to act when surrounded by a lady.

It teaches us how to make the wrinkled face smooth.

It teaches you the kind wife to select to render home happy.

It gives advice to the lover who has been once

truly accepted, and is rejected afterward through the interference of friends.

It gives a remedy for unrequited love.

It gives you instructions for beautifying the person.

How to have a handsome face and hand.

How to remove tan and freckles.

A Lecture on Love, or a private Advice to Marriages.

Many other articles, &c.

Price \$1—mailed post free on receipt of price.

Sold by all booksellers, and agents in the

cars.

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

Terrible Catastrophe at Sea.

The Ship John Rutledge Sunk by Running into a Rock—One Person Rescued—Probable Loss of the Remainder of the Ship's Company.

The Packet ship Germania, Capt. Wood, which arrived at New York on Sunday evening, from Harris on the 29th, brings a report of more perils and fearful work of the passengers in the Atlantic, involving serious loss of life. The N. Y. Courier has the following:

The Germania experienced several wet and stormy gales during the entire passage. On the 7th of February, the barometer standing at 27 degrees 50 minutes, she encountered a terrible hurricane from the south which lasted twelve hours and blew the sail out of the gaskets. On the 23rd of February, in lat. 43 deg. 03 min., N. long. 48 deg. 40 min., she fell in with another, and that same night entered a field of ice that extended to the northwest as far as the eye could reach. By standing to the southeast the Germania cleared this field in three hours. Icebergs were seen laden on board the Germania as far south as lat. 42 deg. 48 min. N. long. 50 deg. 28 min. W. On the 23rd of February a ship's boat was seen ahead of the Germania. A boat was immediately sent from the latter to the rescue, when a sad spectacle presented itself.

In the boat, drifting, were found one living man and four dead bodies, one of the latter being that of a female. The survivor, Thomas W. Nye, of New Bedford, amid the dead, frozen in his hands and feet, and himself nearly dead from starvation. He and the dead by his side were all that remained above the waters out of thirteen who nine days before had left the wreck of the ship John Rutledge, Capt. Kelly, of this port, belonging to Messrs. Howland & Ridgway. The story of the John Rutledge, as given by Mr. Nye, is as follows:

The John Rutledge sailed from Liverpool on the 16th of January. On the 18th of February, in lat. 40 deg. 34 min., lon. 46 deg. 58 sec. W., she fell in with the ice. On the 19th she entered a field of ice, but cleared it. Soon afterwards, however, on the same day, she encountered an iceberg which staved a hole in her bow, and damaged her so much that at six o'clock in the evening she was a complete wreck and evidently sinking. Nothing remained but for those on board to abandon the wreck as best they could. Five boats were lowered, four of which took their loads and left. In the fifth boat, which was the one found by the Germania, the mate of the John Rutledge, Mr. Atkinson, and several others were just about entering, when it broke adrift with the thirteen already in it, leaving the mate and those with him to go down with the wreck. Those in the boat now passed it through the ice as well as they were able, but soon their compass was broken, and amid the snowy and cloudy weather which followed, they knew not which way they went. Days passed on, and one by one of the thirteen in the boat sank in death, from the combined effects of cold and starvation, and were thrown overboard, until the 28th of February, Mr. Nye, with the four last dead, among whom was Mrs. Atkinson, the wife of the mate, were picked up by the Germania.

The Germania, after rescuing Mr. Nye, stood to the northwest until dark, and then lay-to until daylight, in hopes that some others of the drifting boats might be seen. None, however, were discovered, and she then sailed away to the southwest, keeping watch. At 9 o'clock, A. M. there came on a very thick snow storm, which cleared off at noon, but still no boats were to be seen. The Germania still kept to the south, as the other boats were better maneuvered than the one found, bad compasses on board, and it was supposed they would gall for the Gulf stream. Mr. Nye could not tell which way the other boats went, but a bark had come out of the ice about the same time, bound west, which may have possibly picked up some of them. If not, the probability is that those on board of the boats have ere this perished. On the 14th of March, the Germania experienced another hurricane, west-south-west, which lasted three days, driving her back one hundred and fifty miles into the Gulf. It was very cold and there was much snow. The Germania was twenty-five days to the westward of the Banks.

The reader will not fail to notice that the track where the Germania encountered the ice on the 29th of February, and where the John Rutledge was lost upon it on the 19th of the same month, is about the same where the Arago encountered it on the 18th of January, the Atlantic on the 19th of February, the Arago on the 22d, the Baltic on the 27th of the same month, the Persian on the 31st of January, the Africa on the 2d of March, and about the same time as when the Edinburgh on the 27th of March saw what has been supposed by some to be the wreck of the Pacific, and the position of which ice is in the ocean we designated on a chart, which we published on Saturday morning last. An additional hope to that faint one which our ardent wishes still keep alive within us, that the Pacific has not been lost upon the same icy track, may possibly be derived from the fact that neither the Germania nor the survivors from the John Rutledge, bring any report of having seen any vestiges of wreck in nearly the part of the ocean in which we express our fear on Saturday last, that the Pacific had met a fearful fate. We confess, however, that this fact is of a character not to give that hope much foundation on which to build its plausibility.

A dispatch received from New York says, the John Rutledge (which was built at this port) had on board 120 passengers, and a crew of 25 persons, and of those only one soul is known to have been saved. She was insured for \$20,000, and had a cargo of eight hundred tons of merchandise, which was probably seaweed in Europe.

Worth Telling.

Mrs. Polly Beaman, of Birmingham, Conn., is in her 92d year. Her husband, Tracy Beaman, died a short time since; he was two years the senior of his wife. They had lived in the same farm house 69 years. They had a family of nine children, the eldest of whom now is 73, and was married when she was 14. Of the grandchildren there are now 49. There are 156 great grandchildren, and eighteen great-great grandchildren. The family comes of tough stock, and enjoys iron constitutions. This remarkable woman can call two hundred and thirty of her lineal pedigree grandsons and granddaughters.

Emigration to Kansas.

The pioneer party of the season from the North passed through Albany last week—They were from Springfield, (Mass.), and numbered only about twenty persons, it being deemed too early for a larger number to go forward. The next and a much larger company will start on the 25th, and weekly installments will follow. Those who have gone forward are said to be young, intelligent, enterprising young men.

A large party is to start in a few days from New Haven, (Conn.). The company first to leave consists of about forty persons. The majority of the men are described as being under thirty-five years of age, the flower of the community to which they belong, of good character, &c. The association is expected to consist of some three hundred members. The occupations of the different members who were present at a meeting last week were as follows: eight farmers, three wagon masters, two teachers, three surveyors, one physician, four joiners, one cabinet maker, three carpenters, one mason, one millwright, seventeen wives, and thirty-nine children.

A company consisting of one hundred able-bodied men is to start from Exeter, (N. H.) the 1st of April, to settle upon a location selected by their agents near Topsfield, where there is an abundance of wood, coal, good water, &c.

The prospect now is that the emigration from and four dead bodies, one of the latter being that of a female. The survivor, Thomas W. Nye, of New Bedford, amid the dead, frozen in his hands and feet, and himself nearly dead from starvation. He and the dead by his side were all that remained above the waters out of thirteen who nine days before had left the wreck of the ship John Rutledge, Capt. Kelly, of this port, belonging to Messrs. Howland & Ridgway. The story of the John Rutledge, as given by Mr. Nye, is as follows:

The John Rutledge sailed from Liverpool on the 16th of January. On the 18th of February, in lat. 40 deg. 34 min., lon. 46 deg. 58 sec. W., she fell in with the ice. On the 19th she entered a field of ice, but cleared it. Soon afterwards, however, on the same day, she encountered an iceberg which staved a hole in her bow, and damaged her so much that at six o'clock in the evening she was a complete wreck and evidently sinking. Nothing remained but for those on board to abandon the wreck as best they could. Five boats were lowered, four of which took their loads and left. In the fifth boat, which was the one found by the Germania, the mate of the John Rutledge, Mr. Atkinson, and several others were just about entering, when it broke adrift with the thirteen already in it, leaving the mate and those with him to go down with the wreck. Those in the boat now passed it through the ice as well as they were able, but soon their compass was broken, and amid the snowy and cloudy weather which followed, they knew not which way they went. Days passed on, and one by one of the thirteen in the boat sank in death, from the combined effects of cold and starvation, and were thrown overboard, until the 28th of February, Mr. Nye, with the four last dead, among whom was Mrs. Atkinson, the wife of the mate, were picked up by the Germania.

The Germania, after rescuing Mr. Nye, stood to the northwest until dark, and then lay-to until daylight, in hopes that some others of the drifting boats might be seen. None, however, were discovered, and she then sailed away to the southwest, keeping watch. At 9 o'clock, A. The Ship John Rutledge Sunk by Running into an iceberg—One Person Rescued—Probable Loss of the Remainder of the Ship's Company.

The Packet ship Germania, Capt. Wood, which arrived at New York on Sunday evening, from Havre on the 29th, brings a report of more perils and fearful work of the icebergs in the Atlantic, involving serious loss of life. The N. Y. Courier, has the following:

The Germania experienced severe winter gales during the entire passage. On the 7th of February, the barometer standing at 27 degrees 50 minutes, she encountered a terrific hurricane from the south, which lasted twelve hours and blew the sails out of the gaskets. On the 25th of February, in lat. 45 deg. 03 min. N., long. 46 deg. 40 min. W., she fell in with icebergs, and that same night entered a field of ice that extended to the northwest as far as the eye could reach. By standing to the southeast the Germania cleared this ice-field in three hours. Icebergs were seen from on board the Germania as far south as lat. 42 deg. 43 min. N., long. 50 deg. 28 min. W.—On the 28th of February a ship's boat was seen ahead of the Germania. A boat was immediately sent from the latter to the rescue, when a sad spectacle presented itself. In the boat adrift were found one living man and four dead bodies, one of the latter being that of a female. The survivor, Thomas W. Nye, of New Bedford, said he was nearly dead, frozen in his hands and feet, and himself nearly dead from starvation.—He and the dead by his side were all that remained above the waters out of thirteen who nine days before had left the wreck of the ship John Rutledge, Capt. Kelly, of this port, belonging to Messrs. Howland & Ridgeway. The story of the John Rutledge, as given by Mr. Nye, is as follows:

The John Rutledge sailed from Liverpool on the 16th of January. On the 18th of February, in lat. 45 deg. 34 min. long. 46 deg. 56 sec. W., she fell in with the ice. On the 19th she entered a field of ice, but cleared it. Soon afterwards, however, on the same day, she encountered an iceberg which staved a hole in her bow, and damaged her to such an extent that at six o'clock in the evening she was a complete wreck and evidently sinking. Nothing remained but for those on board to abandon the wreck as best they could. Five boats were lowered, four of which took their loads and left. In the fifth boat, which was the one found by the Germania, the mate of the John Rutledge, Mr. Atkinson, and several others were just about entering, when it broke adrift with the thirteen already in it, leaving the mate and those with him to go down with the wrecks. Those in the boat now pulled it through the ice as well as they were able, but soon their compass was broken, and amid the snowy and cloudy weather which followed, they knew not which way they went. Days passed on, and one by one of the thirteen in the boat sank in death, from the combined effects of cold and starvation, and were thrown overboard, until the 28th of February, Mr. Nye, with the four late-dead, among whom was Mr. Atkinson, the wife of the mate, were picked up by the Germania.

The Germania, after rescuing Mr. Nye, stood to the northwest until dark, and then lay-to until day light, in hopes that some others of the drifting boats might be seen. None, however, were discovered, and she then sailed away to the south-west, keeping watch. At 9 o'clock, A. M., there came on a very thick snow storm, which cleared off at noon, but still no boats were to be seen. The Germania still kept to the south, as the other boats were better manned than the one found, had compasses on board, and it was supposed they would pull for the Gulf stream. Mr. Nye could not tell which way the other boats went, but a bark had come out of the ice about the same time, bound west, which may have possibly picked up some of them. If not, the probability is that those on board of the boats have ere this perished. On the 14th of March, the Germania experienced another hurricane, west-north-west, which lasted three days, driving her back one hundred and fifty miles into the Gulf. It was very cold and there was much snow. The Germania was twenty-five days to the westward of the Banks.

The reader will not fail to notice that the track where the Germania encountered the ice on the 29th of February, and where the John Rutledge was lost upon it on the 19th of the same month, is about the same where the Arago encountered it on the 1st of January, the Atlantic on the 19th of February, the Arago on the 22d, the Baltic on the 27th of the same month, the Persia on the 31st of January, the Africa on the 2d of March, and about the same time as that where the Edinburgh on the 27th of March saw what has been supposed by some to be the wreck of the Pacific, and the position of which ice in the ocean we designated on a chart which we published on Saturday morning last. An additional hope to that faint one which our ardent wishes still keep alive within us, that the Pacific has not been lost upon the same icy track, may possibly be derived from the fact that neither the Germania nor the survivor from the John Rutledge, brings any report of having seen any vestiges of wreck in nearly that part of the ocean in which we expressed our fear on Saturday last, that the Pacific had met a fearful fate. We confess, however, that this fact is of a character not to give that hope much foundation on which to build its pleasant indulgence.

A dispatch received from New York says the John Rutledge (which was built at this port) had on board 120 passengers, and a crew of 25 persons, and of these only one soul is known to have been saved. She was insured for \$75,000, and had a cargo of eight hundred tons of merchandise, which was probably incurred in Europe.

Worth Telling.
Mrs. Polly Beaman, of Birmingham, Conn., is in her 93d year. Her husband, Tracy Beaman, died a short time since; he was two years the senior of his wife. They had lived in the same farm house 63 years. They had a family of nine children, the eldest of whom is 71, and was married when she was 11. The grand-children there are now 49. There are 17 great grandchildren, and a large great-great-grandchildren. Their family comes of tough stock, and enjoys trim countenances. This venerable woman can call two hundred and thirty of her lineal pedigree around her Thanksgiving table.

A Divorce Case.
An extraordinary and interesting trial has been commenced in New York, being a suit of divorce brought by Rev. Dr. Cox against his wife, on the ground of notorious and most shameful infidelity. The counsel who opened for the plaintiff stated that the woman has been all her life of bad and profligate character, but that she imposed herself on Dr. Cox as the widow of Mr. Van Wyck, a respectable gentleman, who is alleged, married her after a previous illicit connection. The court stated that she had been tracked to places of bad resort, and that even in Dr. Cox's own house she had received company for improper purposes. Dr. C. has lived apart from her for some time.

Riot in Ohio.
The residents of Quaker Bottom, Ohio, near the borders of Virginia, have lately been holding a series of mass meetings, and denouncing slave catching. This gave offence to a number of Virginians, who, it is alleged, came over to the place, when a riot ensued, during which several negroes were injured. Henry Bradford received a blow upon the forehead from a rock, cutting it very severely. Rev. Mr. Adams received a severe blow, injuring him considerably. A young man, Nathaniel Buchanan for the Presidency. The "Union," of course, favors the re-election of Mr. Pierce.

Elizabethport, N. J., March 23.—A young man named Theodore Barrett, 18 years of age, son of A. J. Barrett, of this city, was killed at Elizabeth last night in attempting to get on the evening train from Philadelphia while the cars were in motion.

A Rich Barber.—It is stated that Mr. Edward Phalen, the New York barber, of the St. Nicholas Hotel, gave a party recently, which cost \$5,000. There were 700 guests, and in the orchestra were some of the best performers in the country.

THE ADAMS SENTINEL.

GETTYSBURG:

MONDAY, MARCH 31, 1866.

Those of our subscribers who intend changing their places of residence this spring, will please inform us where to direct their papers.

We have received from our Representative in Congress, Hon. D. F. Robinson, a copy of his speech on the resolution empowering the Committee on Elections to send to Kansas for persons and papers in the contested election, case from that Territory. We shall lay it before our readers next week.

We learn that the Rev. D. D. Clarke, of Fairfield, has received a unanimous call to the Presbyterian Church at Topka, where there is an abundance of wood, coal, good water, &c.

The prospect now is that the emigration to Kansas this spring will be very large.—If the movements North and South be continued with energy for a few months to come, the Territory will soon have the nine-thousand required by the bill just reported in the Senate to constitute a State.

Republican Caucus at Washington.—The republican members of Congress held another caucus on Monday night at the capital. There was a full attendance, and speeches were made by Messrs. Campbell, of Pa., Campbell, of Ohio, Seward, Galloway, Pennington, Giddings and others. Giddings urged a union of all opposed to the Kansas-Nebraska bill.

The Susquehanna river was still ice-bound at Columbia on Thursday last, being the latest period in any year in the memory of the oldest inhabitant. On the 17th of March, 1796, persons crossed on the ice, and never since so late as now.

The Liquor Bill.

The Committee of Conference on the Liquor bill have agreed, and their report was to be made on Friday. The bill, it is said, fixes \$25 as the minimum license for taverns in the country ; \$50 in country towns and other boroughs with over 200 taxables ; \$75 in Philadelphia and Pittsburg ; and one hotel to be licensed in the cities for every 100 taxables, and one for every 150 taxables elsewhere. It also allows one restaurant or eating-house to be licensed for every four hotels every where ; the license not to be less than \$20, and to be granted by the Courts.

The General Appropriation bill has passed the House of Representatives, and is before the Senate. Among the provisions is one, raising the salary of the President Judges to \$2,000, and of the Judges of the Supreme Court to \$3,000. There is also a provision appropriating \$10,000 for the purchase of a copy of Webster's large Dictionary for each School District in the State.

The National Executive Republican Committee held a conference at Washington on Thursday night, with the leading anti-Nebraska members of Congress, with the view of determining the best course to concentrate all opposed to slavery in the Territories, in securing the nomination of a conservative and generally acceptable Presidential candidate. A circular addressed to the people of the U. S. States, inviting their adoption, is in progress of adoption.

Mr. Jacob Einbjich, a respectable citizen of Greenville, Franklin county, shot himself at his residence on Tuesday afternoon last. His mind has been somewhat impaired for some time past. He leaves a wife and four or five children.

Mr. Wm. B. McIlroy, formerly of Franklin county, met with a horrid death (says the Repository) at his new place of residence, Oakdale, Jennings county, Indiana, on the 14th inst. He was conducting a steam saw-mill, when the boiler burst, killing him, and several others. The mill was blown almost entirely to pieces and rendered a complete ruin.

Mr. Henry Netze, miller in Mr. Keller's mill, in Lancaster county, was unfortunately caught in the machinery of the mill, on the 14th inst., and crushed to death. By this the mill was stopped. How long he was in the wheels before the accident was discovered, no one can tell—perhaps one hour. He was in his 30d year—a good citizen and kind husband. He left a wife and two children.

Harper's Magazine, for April, has an illustrated sketch of the life of Gen. Putnam, of revolutionary fame, with a great variety of other matters, of interest and beauty. The circulation of this popular periodical is constantly and largely increasing.

Gentlemen who arrived at Washington last week from the North and Western States, represent the weather there as continuing exceedingly cold ; great depths of snow and ice almost as thick as at any period of the winter.

The Washington Bank, at Washington City, stopped payment on Thursday last. It is owned by Mr. Shelden, of Chicago.

Col. Farney has retired from the Washington "Union" newspaper establishment, on account of his preference for Mr. Buchanan for the Presidency. The "Union," of course, favors the re-election of Mr. Pierce.

Elizabethport, N. J., March 23.—A young man named Theodore Barrett, 18 years of age, son of A. J. Barrett, of this city, was killed at Elizabeth last night in attempting to get on the evening train from Philadelphia while the cars were in motion.

The Union Convention.

A Convention of all those opposed to the National Administration, called to nominate a State Ticket, assembled at Harrisburg on Wednesday last, and was called to order by Hon. John Covode, of Westmoreland. Nearly all the counties were fully represented, and the utmost harmony prevailed. David Wills, Esq. and Edward McPherson (substituted for D. A. Buehler, Esq.) represented this county.

Gideon J. Ball, of Erie, was appointed President. There were 19 Vice Presidents, and 6 Secretaries, among whom was E. McPherson, of Adams.

Mr. Ball, on taking office, delivered a neat speech, intended to harmonize the various elements of which the body is composed. A committee of 33 was appointed to draft resolutions ; and nominations were made for Canal Commissioner, Auditor General and Surveyor General. The Convention then adjourned until evening.

We learn that the Rev. D. D. Clarke, of Fairfield, has received a unanimous call to the Presbyterian Church at McVeytown, Mifflin county. We have heard nothing as to his acceptance or rejection of the call.

Girardus Clarkson, Esq., has resigned the Chairmanship of the Farmers' Bank of Lancaster, and Henry R. Reed, Esq., for many years a teller in the Bank, has been appointed to fill the vacancy.

The Susquehanna river was still ice-bound at Columbia on Thursday last, being the latest period in any year in the memory of the oldest inhabitant. On the 17th of March, 1796, persons crossed on the ice, and never since so late as now.

The Liquor Bill.
The Committee of Conference on the Liquor bill have agreed, and their report was to be made on Friday. The bill, it is said, fixes \$25 as the minimum license for taverns in the country ; \$50 in country towns and other boroughs with over 200 taxables ; \$75 in Philadelphia and Pittsburg ; and one hotel to be licensed in the cities for every 100 taxables, and one for every 150 taxables elsewhere. It also allows one restaurant or eating-house to be licensed for every four hotels every where ; the license not to be less than \$20, and to be granted by the Courts.

The resolutions recommend a union of all the elements of opposition to the National Administration : and condemn the course of the Administration with reference to the Missouri Compromise and affairs in Kansas and Nebraska, as having forfeited the respect and confidence of the people.

Mr. Campbell, of Ohio, said, he was

not exceeding \$5. These fractions when received shall not again be passed out, but shall be re-coined. It also authorizes the President, whenever he deems it expedient, to issue a proclamation legalizing a new cent piece, to be formed either by a reduction of the weight of the copper of the present cent, or by alloy with other metal.

The bill relating to foreign coin and to the coinage of cents at the Mint, was introduced in the Senate of the U. States, on

Tuesday last, by Mr. Hunter. It provides

that Spanish milled or Mexican quarters,

eighths and sixteenths, shall be received at

the U. S. offices at 20, 10 and 5 cts, respectively, and made a legal tender for all sums

not exceeding \$5. These fractions when

received shall not again be passed out, but

shall be re-coined. It also authorizes the

President, whenever he deems it expedient,

to issue a proclamation legalizing a new
